

SAMISTHA KESARWANI

Prayagraj, India

✉ samisthakesarwani444@gmail.com  [Linkedin](#)  [Github](#)  [Portfolio](#)  [LeetCode](#)

PROFILE

B.Tech student (Final Year) with demonstrated skills in Data Science and Data Analytics including Python, NumPy, Pandas, Power BI, statistical modeling, and EDA. Passionate about extracting meaningful patterns from complex data and translating them into business insights. Seeking an internship to contribute to real-world analytics and ML projects.

PROJECTS

Leafie – Crop Disease Detection | [Python, TensorFlow/Keras, CNN, TensorFlow Lite](#) | [GitHub](#) **2026**

- Trained a CNN from scratch on **38 disease/healthy classes** across **14 crops**, reaching **~86.3%** validation accuracy.
- Deployed via **TensorFlow Lite**, shrinking the model from **255MB to 21MB**; flags low-confidence predictions instead of guessing.

Sales Performance & Revenue Dashboard | [Power BI, DAX, Power Query, Excel](#) | [GitHub](#) **2025**

- Built interactive dashboard analyzing **10,000+ rows** of Superstore sales data across regions and categories.
- Engineered **5+ DAX measures** like Profit Margin %, MoM Growth with dynamic slicers and drill-through reports.

Movie Recommendation System | [Python, Scikit-learn, NLP, Streamlit](#) | [Live Demo](#) | [GitHub](#) **2025**

- Built content-based recommendation engine using **TF-IDF Vectorization** and **Cosine Similarity** on **5,000+ TMDB** movies dataset.
- Engineered movie tags from genres, cast and keywords; deployed as a **live web app** on Streamlit.

EXPERIENCE

IBM **June 2026 – Present**

Project-Based Experiential Learning (PBEL) Virtual Internship

- Undergoing a virtual internship focused on practical application of data science and AI concepts through project-based learning.

Effervescence, IIIT Allahabad **May 2025 - June 2025**

Machine Learning Training Program

- Trained on core ML concepts (supervised learning, preprocessing, model evaluation); built hands-on projects with Pandas, NumPy, and Scikit-learn.

TECHNICAL SKILLS

- **Languages** : Python, C, C++
- **Tools** : MySQL, Jupyter, VS Code, GitHub, Power BI
- **Libraries** : NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow
- **Concepts** : Data Preprocessing, EDA, Machine Learning, Deep Learning, NLP

EDUCATION

United University, Prayagraj **Anticipated 2027**

B.Tech - Honours in Data Science and Analytics | *CGPA: 8.91/10*

Prayagraj, Uttar Pradesh

NIELIT, C.M.P. Degree College, Allahabad

2023 – 2025

‘O’ Level (Diploma in Computer Application)

Prayagraj, Uttar Pradesh

ACHIEVEMENTS

- Kaggle Competition - Titanic Survival Prediction | Random Forest | Public Score: 0.748

CERTIFICATIONS

- Exploratory Data Analysis (Gold, 95%) - NASSCOM FutureSkills Prime, MeitY
- GenAI Powered Data Analytics Job Simulation - TATA (The Forage)
- Mastering Power BI: Data Analysis and Dashboard Creation - MSDE Skill India
- 50 Day Coding Competition Challenge - Prerogative Pointers, United University
