PROFILE

Final-year B.Tech (Honours) student in Data Science & Analytics with hands-on experience in Python, SQL, Power BI and EDA, turning raw data into decision-ready insights through 10+ analytics projects and 3 industry internships (IBM, AICTE, Edunet/VOIS). Seeking a Data Analyst role to deliver clear, actionable insights.

EXPERIENCE

IBM SkillsBuild (CSRBOX)

August 2026 - September 2026

Data Analytics with AI - Virtual Internship (via AICTE)

- 60-hour program with a capstone; analysed ~**205K** Flipkart reviews (**Gradient Boosting**, **TF-IDF**) to uncover pricing and complaint drivers.

Edunet Foundation (AICTE & VOIS)

August 2026 - September 2026

Data Analytics Internship

- Analysed farm (**4,000**) and used-car (**301**) datasets in Python: data cleaning, IQR outlier treatment, feature engineering, **20+** visualizations.

IBM

June 2026 - August 2026

Project-Based Experiential Learning (PBEL 3.0) - AI Internship

- Built **Leafie**, a CNN crop disease detector (**86.3%** accuracy) that flags low-confidence predictions instead of guessing.

PROJECTS

Seasonal Agriculture Performance Analysis | Python, Pandas, Seaborn | [GitHub](#)

2026

- Analysed **4,000 farm records** across Kharif, Rabi and Zaid seasons; found Zaid is the **only loss-making season** and **49%** of farms run at a loss.
- Showed **drip irrigation** earns ~**3x** the profit of flood (Rs.2.20L vs Rs.0.73L); sugarcane and chilli drive profitability.

Car Market Analysis – CarDekho | Python, Pandas, Seaborn | [GitHub](#)

2026

- EDA on **301 used-car listings**: IQR outlier treatment, engineered **Car_Age** and **Depreciation_Pct**, and **10+ visualizations**.
- Found diesel cars resell at ~**Rs.8.4L** vs ~**Rs.3.2L** for petrol; present price is the strongest predictor of resale value.

Sales Performance & Revenue Dashboard | Power BI, DAX, Power Query | [GitHub](#)

2025

- Built an interactive dashboard on **10,000+ Superstore records** with monthly trends, regional insights, KPIs and slicers.
- Engineered **5+ DAX measures** (Profit Margin %, MoM Growth) with drill-through reports.

TECHNICAL SKILLS

- Languages** : Python, SQL, C, C++, Java
- Databases** : MySQL, MySQL Workbench, Database Management Systems
- BI & Tools** : Power BI (DAX, Power Query), MS Excel, Jupyter, Google Colab, Git/GitHub
- Libraries** : NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Streamlit
- Concepts** : Data Cleaning, EDA, Data Visualization, Dashboarding, Statistics, Feature Engineering, NLP

EDUCATION

United University, Prayagraj

Anticipated 2027

B.Tech - Honours in Data Science and Analytics | CGPA: 9.02/10

Prayagraj, Uttar Pradesh

CERTIFICATIONS & ACHIEVEMENTS

- Kaggle Competition - Titanic Survival Prediction | Random Forest | Public Score: 0.748
- Exploratory Data Analysis (Gold, 95%) - NASSCOM FutureSkills Prime, MeitY
- GenAI Powered Data Analytics Job Simulation - TATA (The Forage)
- Mastering Power BI: Data Analysis and Dashboard Creation - MSDE Skill India
